Introduction

Greetings! Here is a portfolio curated to show you my recent work.

I specialize in game art / digital art, specifically, stylized characters. I am proficient in simple animation, both motion graphics and frame animation.

Common applications I use for art are ProCreate & Adobe Photoshop.

Don't see what you're looking for? Contact me via email or LinkedIn, I'll get back to you if I have samples of what you're looking for!

If there are any works that catch your eye, do reach out to me, I am open for commissions.

Enjoy viewing!
