ACQUIT

A Strategic Court Game Based On The Murder Trial Of O.J. Simpson

How To Play

Welcome to Acquit! – a role-playing strategy card game where you take on the role of the defense attorney, determined to keep your client, O.J Simpson, innocent. A well-prepared lawyer armed with compelling evidence, key witnesses, and strong credibility, your goal is to win this case for your client.

Phase 1 – Pre-Trial

At the start of the game, lay all 3 motion cards at the top of the playing field, face-up.

During the pre-trial phase, only the following decks are needed

1. Investigation Deck
2. Discovery deck [Tactics and Evidence]

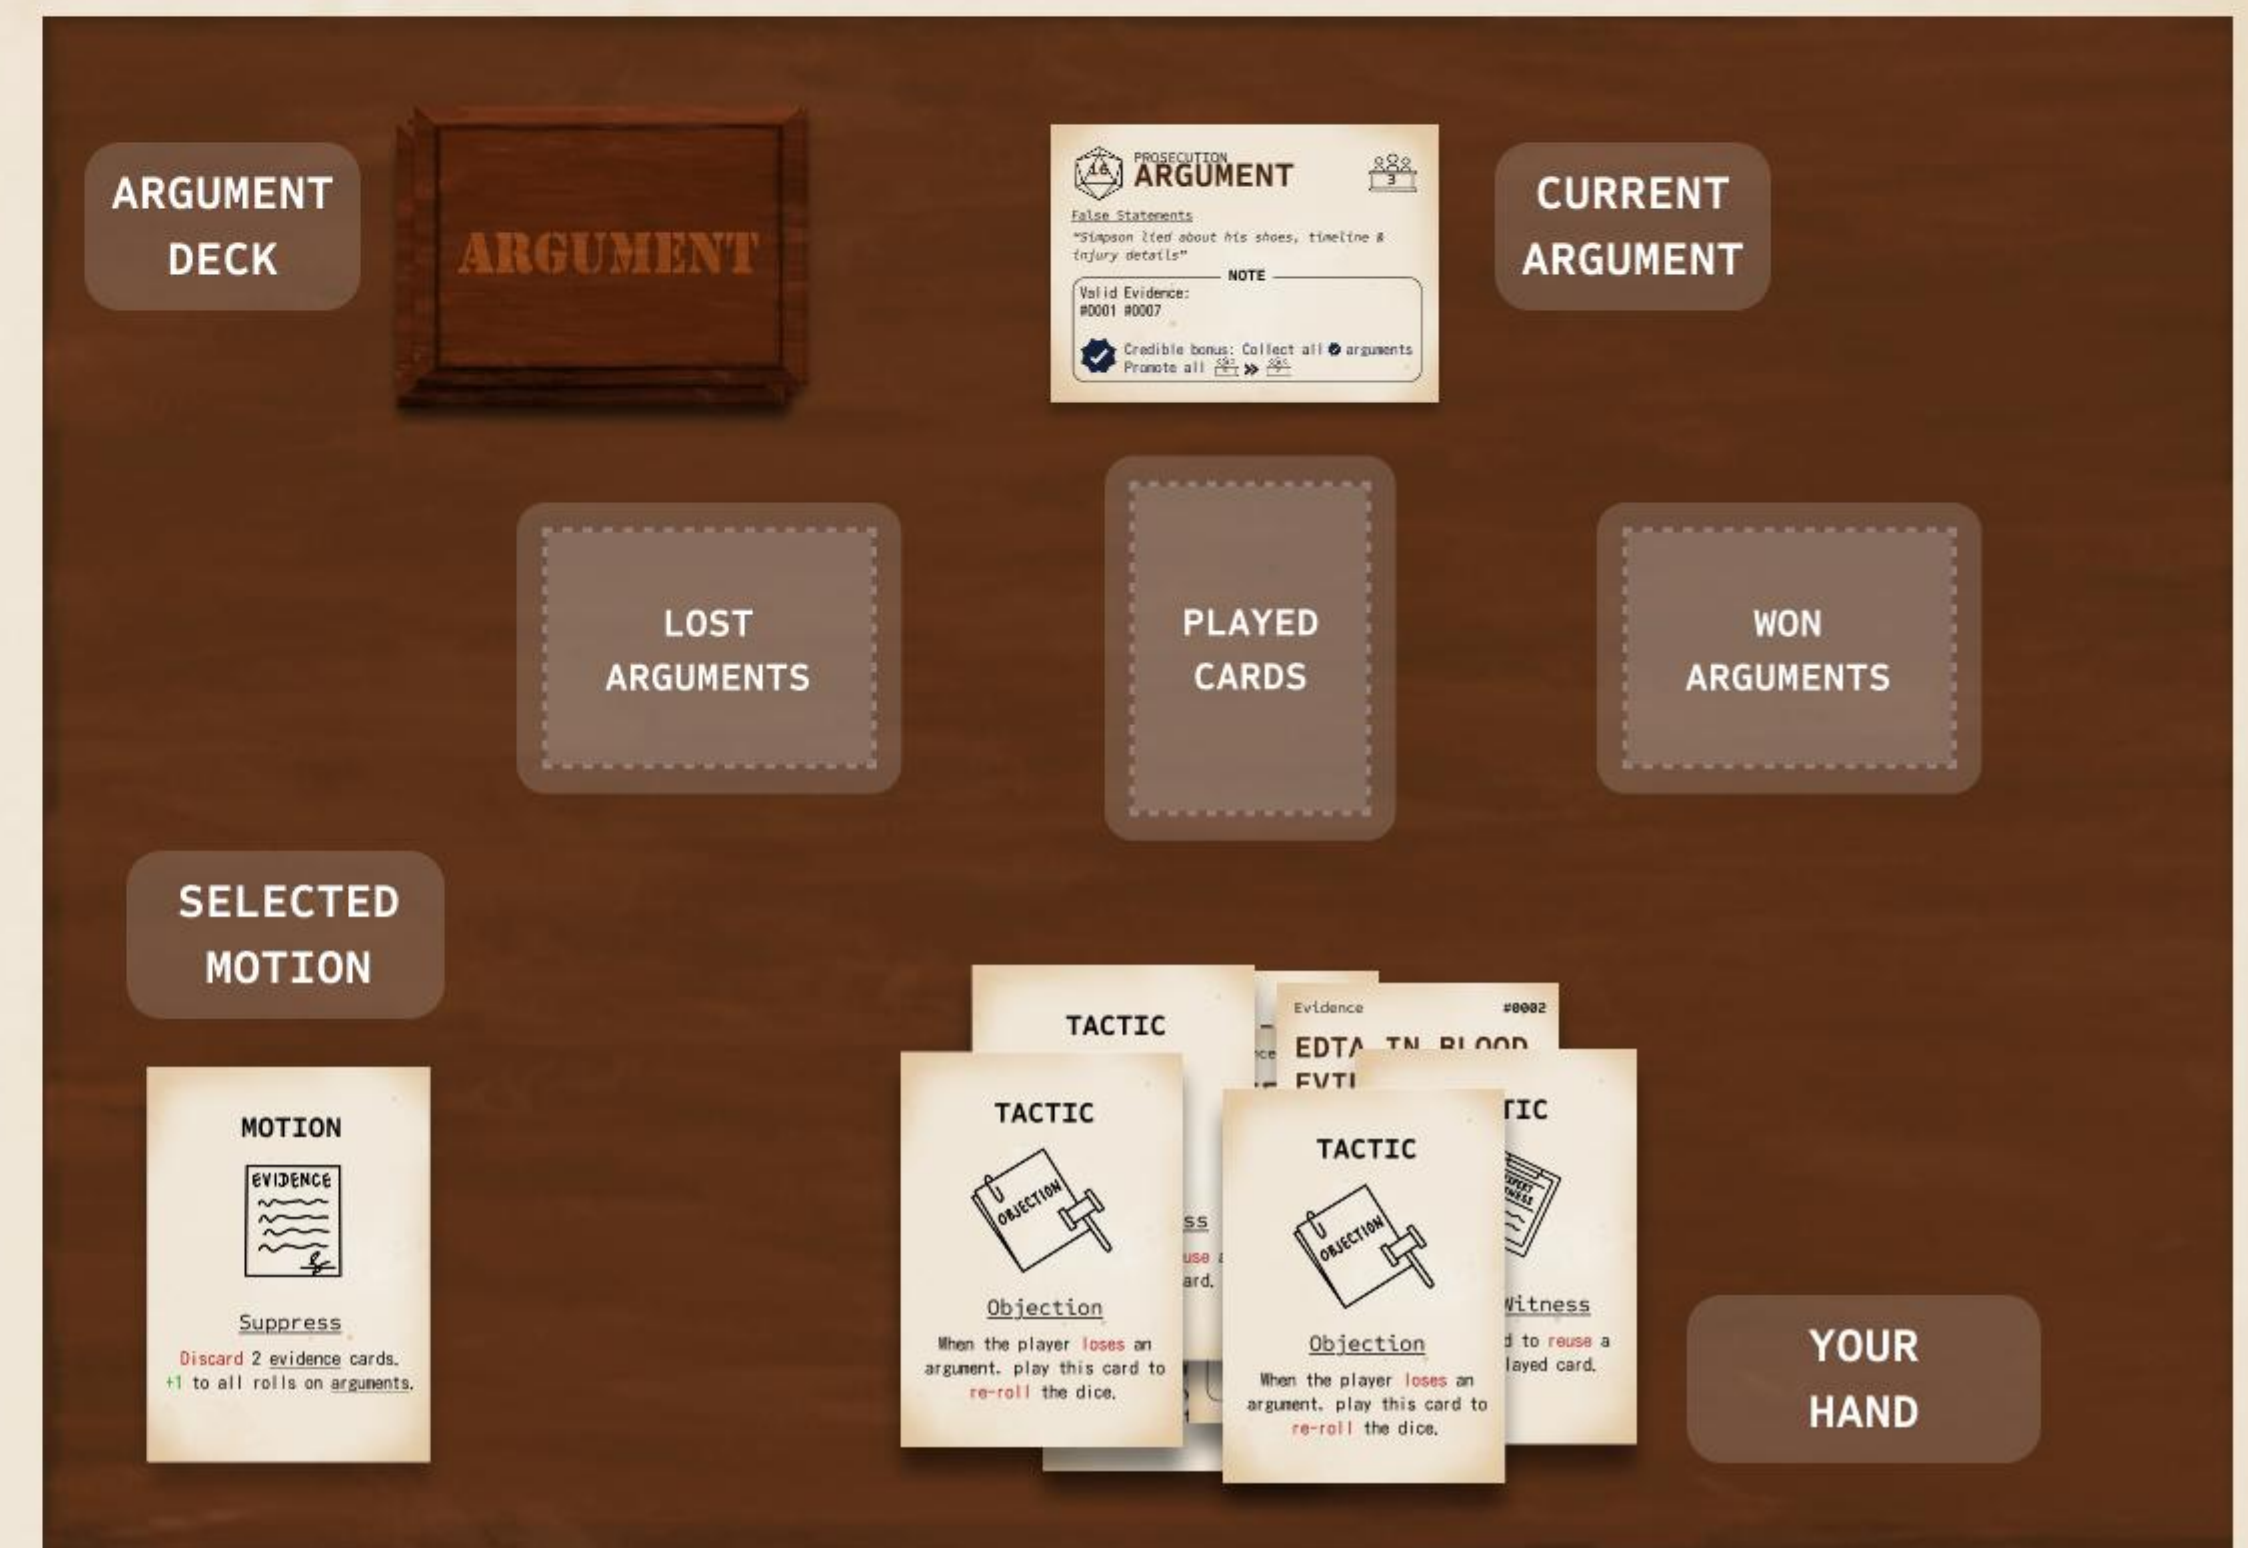

Shuffle the Discovery Deck – set it aside.

With the investigation cards on hand, play 1 investigation card per turn to build your hand for the Trial Phase with the Discovery Deck.

In the event that there are insufficient cards left in Discovery Deck, **shuffle** from the Discard Pile and draw **only** Evidence/Tactics.

Phase 2 – Trial

Select the motion card that best fits your hand. Shuffle the argument deck and lay them out in the format below.

At the start of each turn, reveal a card from the argument deck.

You may play up to 1 evidence card and 1 tactics card to help you win the argument. [Unless stated otherwise]

Each argument card has a difficulty class(DC), which requires you to roll a D20 die. To win, you have to roll the DC or higher.

Add the bonuses you have from evidence/motion/tactics to check for a win.

If the argument is won, place it on the right side of argument deck, If lost, place it on the left. Repeat this until there are no more argument cards left. The trial is now over.

Tally your score. Each argument has a stipulated value, indicated by their persuasion level. Level 1 being worth 1 point and level 3 being worth 3 points. There are also set bonuses that are applicable if players win all arguments of the same set. These bonuses are shown on the argument cards.

If the players total score is 20 or more, they win.
